

2000*600*2000 Heavy Duty Drive-in/Drive-Through Racking System For Warehouse Storage

Basic Information

Product Specification

Model NO.: QIFEI-004Material: Steel

• Structure: Drive In Rack

• Type: Drive-In Pallet Racking

Mobility: Adjustable
Height: 0-5m
Weight: 500kg
Closed: Open

Development: Conventional
Serviceability: Common Use
Color: Customized
Lead Time: 15 Days
Raw Material: Q235

Surface Treatment: Powder Coating

• Transport Package: Safe

Product Description

*Note: The specifications, sizes, colors and surface treatments of the products can be customized! Warehouse Steel Storage Heavy Duty Drive In Rack

Drive-in/drive-through racking system: perfect for warehouses with homogeneous goods and a large number of pallets per SKU

Drive-in racking is the simplest and most affordable high-density storage method. It is comprised of multiple racks with a series of lanes accessed by forklifts to deposit or retrieve pallets. Compared to conventional pallet racking, this solution notably increases storage capacity.

These racks can have two configurations: drive-in (pallets are loaded and unloaded from the same working aisle) or drive-through (pallets are loaded through the front aisle and unloaded through the rear aisle).

ADVANTAGES OF A DRIVE-IN/DRIVE-THROUGH RACKING SYSTEM

- OMaximum utilisation of space: it makes excellent use of both the available surface area and height, thus increasing storage capacity compared to conventional pallet racking.
- OSimple and economical: it's the simplest high-density storage system and requires the lowest investment.
- oConfigurable: the depth and height of this racking can be adapted to the needs of each customer and to the characteristics of the goods handled.
- One or two aisles: this solution can be used with just one aisle (loading and unloading from the front) or with two (loading in the front, unloading from the back).
- OGuiding elements: Mecalux drive-in racks incorporate accessories that facilitate forklift movements and correct pallet positioning.
- OEnergy savings: the smaller footprint reduces the surface area to be cooled in cold storage and freezer warehouses.
- OEasy inventory management: each lane stores a single SKU, streamlining stock control.
- ODifferent pallet types: this racking can accommodate pallets of varying weights and dimensions.

Company Profile

Jiangsu Qifei Intelligent Storage Equipment Co., Ltd,

established in 2020, is one of the leading manufacturer which specialized in designing & manufacturing industrial warehouse storage racks, automation warehouse system and professional logistics equipment, we aim to provide cost-effective and space utilization storage solutions for all customers worldwide.

We have powerful R&D teams,including 8 experienced design engineers.

Qifei's workshop equipped with 6 automatic production lines of rolling and curved steel and two static powder coating lines, which ensures the high quality of our products. All our products and operation are ISO:9001 certified , and all our racks / shelving are approved by SGS company .

Our main products are heavy duty rack, medium duty rack, light duty rack, cantilever rack, mezzanine floor, drive in rack, and so on.

Welcome to visit our company.

FAQ

- Q: Are you manufacturer or trading company?
- A: We are experienced manufacturer in the warehouse storage industry.
- Q: How is your delivery time?
- A: Generally, it is within 25 days against formal order and deposit. It also depends on other factors such as order quantity.
- Q: What is the payment term?
- A: T/T 30% as deposit, and 70% before delivery. We'll show you the photos of the products and packages before you pay the balance.
- Q: What is your terms of delivery?
- A: EXW, FOB

- Q: Are samples available?
- A: Yes, We can supply the sample if we have ready parts in stock, but the customers have to pay the sample cost and the courier cost.
- Q: What is the minimum order quantity?
- A: Generally, MOQ is 10sets.
- Q: Can I make my own brand and designed products?
- A: Yes, we do both OEM and ODM, so you can make your own product with your own logo.
- Q: Where is your factory? Can I visit it?
- A: Our factory located in Nanjing, Welcome to visit our factory. We can arrange pick-up from the airport or train station for you.
- Q: What parameters do I need to provide for an accurate quotation?
- 1) Quantity(set)
- 2) Size: Length*Width*Height (mm) or samples or technical drawings
- 3) Load capacity per layer(kg)
- 4) Number of layers
- Q: What is the material being used for your products?
- A: Mild steel Q235.
- Q: I don't have drawing or picture available for the products, could you design it for me?
- A: Yes, we can make the best suitable design for you but need to knowmore details.
- Q: Do I get any guarantee from your company?
- A: 3 years warranty
- Q: How do you make our business long-term and good relationship?
- A: Quality makes trust and reputation, plus competitive price to ensure our customers benefit;
